

Hema Sri Satya Gowri Narala

Andhra Pradesh, India [hemasrinarala123@gmail.com] +91 79979 29105 | [LinkedIn](#) | [GitHub](#)

Professional Summary

Software developer with hands-on experience building full-stack web and mobile applications using React, React Native, Node.js, and MongoDB. Demonstrated ability to quickly learn new technologies and transform ideas into functional solutions through practical implementation. Experienced in collaborative development and building user-focused applications.

Technical Skills

Languages	: Python, JavaScript, HTML5, CSS3
Frontend	: React.js, React Native, Expo, Bootstrap, Responsive Design
Backend	: Node.js, Express.js, REST APIs
Databases	: MongoDB, SQLite
Tools	: Git, GitHub, Cloudinary, Render, Android Studio, VS Code
Core-Concepts	: Data Structures & Algorithms, OOP, Authentication, API Integration, State Management, Team Collaboration

Education

Rajiv Gandhi University of Knowledge Technologies (RGUKT)
B.Tech in Electronics and Communication Engineering

May 2026
CGPA: 8.3

Projects

ScrapDig – Sustainable Waste Management Mobile Application

React Native, Expo

- Designed a React Native prototype with 25+ screens supporting recycling, learning, user-engagement features.
- Engineered 15+ reusable UI components and constructed multi-screen navigation using React Navigation.
- Built 3 core workflows covering waste pickup requests, campus complaint tracking, and reward management.
- Solved Android build issues, dependency conflicts, navigation bugs, and APK deployment challenges.

Hand2Hand – Connecting Skilled Workers with Customers

MERN Stack, React Native, Socket.IO

- Created a full-stack service-booking platform supporting 2 user roles: skilled workers and customers.
- Incorporated authentication, booking workflows, and real-time communication through team collaboration.
- Integrated MongoDB, Cloudinary, and Render for scalable backend services and media storage.
- Developed a full-stack marketplace platform with 12 backend modules, 40+ REST API endpoints, and real-time communication using Socket.IO.
